Market Overview

The market ended higher in a volatile trading week. The S&P BSE Sensex reclaimed the psychologically important 28,000 mark after falling to its lowest level in more than 14 weeks on Monday, 17 October 2016. The beginning of three-day GST council meet on Tuesday, 18 October 2016, to finalise the tax rate triggered positivity, which in turn resulted in short covering across the board during the course of the week. In the week ended Friday, 21 October 2016, the Sensex rose 1.46% . The Nifty 50 index rose 1.28%. For today's trade Nifty likely to trade in the range between 8750 – 8850 in the upper side and 8600 – 8550 in the lower side.
