*Market overview*

Indian equity benchmark indices the S&P BSE Sensex and the Nifty 50 index closed the week ended Friday, 20 January 2017 on sour note. The trading for the week was lacklustre during four trading sessions from Monday, 16 January to Thursday, 19 January 2017, with a range-bound trading, amid mixed global cues. The slide on the last trading session of the week is attributable to the caution ahead of US President-elect Donald Trump’s inauguration later in the global day on Friday, 20 January 2017. Markets across the globe await a clear cut direction from Trump on US’ economic policies. For the Next week Nifty likely to trade in the range between 8450 - 8550 in the upper side and 8250 - 8150 in the lower side
